A storybook about our class

Build Your Dream!

How Our App Class Works

Moonwalkers
TECHNOLOGY

Welcome, Builder!

Center Stage Build Academy in Nashville helps young people learn, create and build.

Moonwalkers Technology is our class where you build your very own app! 📱

Step 1

Pick Your Art!

What do you love to make? Choose your art.

- Music
- Dance
- Art & Drawing
- Fashion
- Photo & Video
- Acting
- Poetry
- Something else!

Step 2

Dream It Up! 💭

How could an app help an artist like you? Think of a problem your app could solve.

- 🖼️ Show off your art
- 📅 Book your shows
- 👗 Share your designs
- 🎧 Share your songs

A real example

A real app made for musicians.

centerstagehq.app

See What an App Can Do!

💬 **"Start with Nash!"**

Nash is a friendly guide who helps artists get started. ⭐

- 🎵 Song Pitch
- 📰 Press Kit (EPK)
- 🗺️ Stage Map
- 📅 Release Calendar

Step 3

Plan It on Paper!

Draw your app before you build it. Sketch the screens, the buttons, and what each one does.

Step 4

Learn the Building Blocks 🧱

Every app is made of a few simple pieces, like LEGO bricks!

Screens

the pages you see

Buttons

things you tap

Words & Pictures

what you show

Saving Info

so the app remembers

Step 5

Build It with Friendly Tools! 🤖

Tell an AI app builder your idea in plain words. Build it step by step, with a mentor right beside you.

You type:
"Make a page that shows my drawings in a big gallery."

➡️

✨
The builder makes it!

➕

Your mentor helps

Step 6

Make It Yours! 🎨

Pick your colors, make a logo, and give your brand a name. Your app should look like **you**!

🌈 **Colors**

⭐ **Logo**

🏷️ **Name: "Maya's Art Studio"** (example)

Step 7

Test It!

Friends and family try your app. If something is tricky, you fix it. Then try again!

Testing = trying your app to find what works and what needs fixing.

Step 8

Share It with the World! 🌍

Launch your app on the internet. You get your own link to share with everyone!

🔗 mayasartstudio.app

(example link)

Step 9

Show Day! 🌟

Step into the spotlight! Show your app to your family and community.

Your Art + Your App = Your Own Business Idea!

Your app can be the start of your very own creative brand.

Your Art

+

Your App

=

Your Business Idea

 Your brand

 Your fans

 Your portfolio

 Your work, shown

Your Builder Journey

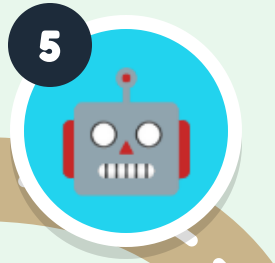

From big idea to the big stage, one step at a time!

1. 
Pick your art

2. 
Dream it up

3. 
Plan it

4. 
Learn the blocks

5. 
Build it

6. 
Make it yours

7. 
Test it

8. 
Share it

9. 
Show day!

10. 
Your own app!

Take Center Stage!

Pick your art. Build your app. Share your dream! 💛
